

to whom it may concern, The question that needs to be asked is why is NAB trying to block XM??

Are they affraid of competition?? Are they affraid that I as an adult can't make a conscience choice on my own, that they need to step in a guide me??? Maybe they are just affraid that someone other than themselves are geting my money!!! none the less NAB needs to crawl back under there stone and get off of XM radios back..The is America and I do believe that this country was and still is being built by free enterprise
